# Bodnant Estate Joinery

SPECIALISING IN BESPOKE JOINERY AND DESIGN

# About Us

Bodnant Estate Joinery has been making bespoke timber products for many years using its own team of highly skilled and enthusiastic craftsmen.

Our joinery team live and breathe wood. We are passionate about making quality products from quality timber and when possible sourced from the Welsh Oak grown on the Bodnant Estate and, when necessary, from local suppliers. All timber purchased can be traced and is from FSC approved suppliers.

## Innovative & Approachable

At Bodnant Estate Joinery we strive to be innovative, approachable and responsive to your design needs. Our aim is to help realise our clients' visions of timber crafted products with our all-encompassing joinery service. During the consultation process, we offer our professional advice on the choice of timber and the design. We listen and respond to detailed input from our clients and therefore are able to complete a project with consistent attention to detail - detail that can only be delivered by the very best craftsmen.

## Highly Skilled Craftsmen

At Bodnant Estate Joinery we believe that we have some of the most gifted and highly skilled joiners and finishers in the country. The combined team have over 100 years of experience, and several of them have the ability to produce joinery artefacts that many other manufacturers would turn down due to the complexity of the intended work.

Added to this, we have the personal skills to discuss your work in a friendly and non committal way. Please feel free to contact us to discuss your project - however simple or complex it may be.

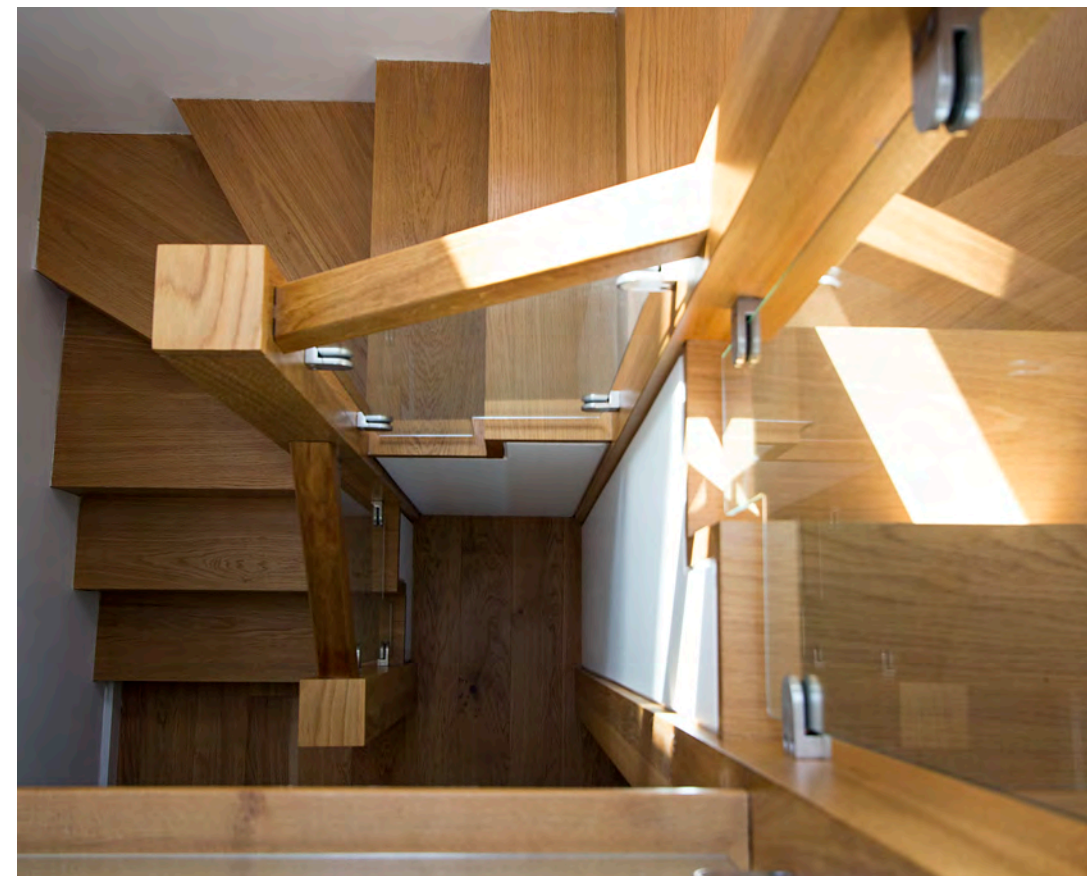

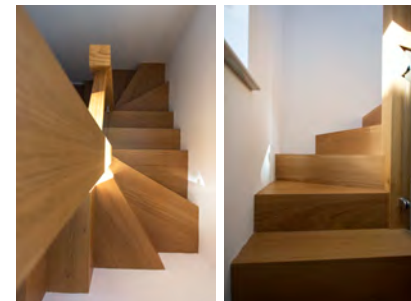

# Staircases & Mouldings

Traditional wooden staircases  
Contemporary staircases  
Bespoke designed staircases  
Custom machined mouldings

*Please note we offer a fully finished decorating service, or an onsite fitting service. If this is required, please ask for further details when ordering.*

We have a very experienced staircase joiner who has a great portfolio of both traditional and contemporary staircases that he has made over many, many years. Curved handrails can be made if required and a full fitting service is available.

All staircase designs can be ordered in a variety of finishes. Bodnant Joinery are pleased to advise their customers that they have installed a spray booth thus continuing the expansion and development of the business. We have received more and more requests for a complete decoration service to further enhance our products, so made this decision as a practical and natural step forward. We pride ourselves on the quality of our bespoke joinery so the addition of this facility should lead to an exceptional and complete end product.

Traditional wooden staircases | Contemporary staircases | Bespoke staircases | Custom mouldings | Curved handrails | Superb design and finish | Fitting service available

# Windows

Sliding box sash  
Stormproof casement  
Traditional flush casement  
Bespoke Designed  
Shop Front and Internal  
Feature  
Conservatory  
Farmhouse  
Fanlights  
Circular windows.  
Wooden shutters

At Bodnant Estate Joinery we take great pride in the fact that we can manufacture windows to almost any specification - from modern to retrofit - and for any application. Our windows are not only beautiful to look at and manufactured to the very highest specification, they also offer exceptional performance against the great British weather. All of our windows offer high insulation with a wide range of glazing options.

We understand that a fully finished window can really accentuate the exterior appearance of any building and we are pleased to offer a fully finished decorating service for our products. We can provide a complete spectrum of colours to match your personal preference, using of course, the very best in paint quality.

# Doors

External  
Internal  
Bi-fold  
Arched  
Shutters  
Bespoke  
Patio  
French Window  
Farmhouse

At Bodnant Estate Joinery we take great pride in the fact that we can manufacture doors to almost any specification - for both interior and exterior applications. Our skilled team can manufacture bespoke solutions for any application with a wide range of glazing and timber options, with an emphasis on heat insulation and enhanced security.

We understand that a fully finished door can transform the look of any property and we are pleased to offer a fully finished decorating service for our products. We can provide a complete spectrum of colours to match your personal preference.

## Other Products

Shop Fronts, Counters and Shelving  
Ornamental garden or pedestrian bridges  
Bespoke gates, driveway or arched pedestrian gates  
Garden seating and lighting  
Bicycle shelters and sheds  
Outdoor seating for private or commercial clients  
Lean-to buildings in kit form for storage  
Garden office structures

We are rightfully proud of the fact that our highly skilled team of craftsmen can undertake almost any joinery project. Of course, we are highly adept at architectural and furniture joinery, but also relish the unusual 'off the wall' projects also. If you have any projects in mind that are timber based, please get in touch with us for an informal, friendly chat. We would love to hear from you to discuss your ideas.

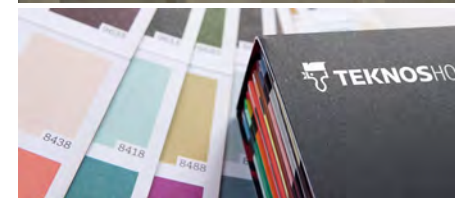

# Fully Finished Decoration Service

Bodnant Estate Joinery are pleased to advise our customers that we have installed a Spray Booth, thus continuing the expansion and development of the business.

We have received many requests for a complete decoration service on our products. The decision to install the spray booth therefore was a professional and natural step forward to add to the service we provide to our clients and customers. This facility adds to our exceptional products.

Teknos Industrial Wood is one of Europe's leading suppliers of water based coatings and treatments for the woodworking industry. The extensive product range, preservatives, primers, base stains, stain inhibiting products, fillers, sealers and high build topcoats offer a complete package for modern, high performance, joinery. Please visit <http://www.wood.teknos.com> for additional durability information.

Our dedicated spray facility can house large and odd-shaped joinery items which ensures that almost any product can be delivered to our customers fully finished / decorated and ready to use. Items delivered for site work have the added advantage of Teknos protection.

# Heritage & Conservation

Specialist conservation items  
Bespoke products to replace or match existing work  
Listed building and heritage projects undertaken  
Custom machine mouldings

Heritage is an area in which we are particularly skilled, having carried out work for The National Trust, CADW funded projects and other conservation architecture projects. Bodnant Estate Joinery has, for many years, carried out bespoke handmade joinery work to many projects including listed buildings in addition to sensitive reproduction works of period craftsmanship in wood whilst working with conservation architects - this has also included the emulation of period work for The National Trust.

This type of work is both challenging and interesting for our skilled team. Accepting commissions for what are often works of art can lead to projects that are relished enthusiastically by our bench joiners whose craft expertise rises to the task of creating timeless examples of period woodworking.

*Please note we offer a fully finished decorating service, or an onsite fitting service, if this is required. Please ask for further details when ordering.*

Ensuring our clients are provided with environmentally responsible joinery products is all part of our service. At Bodnant Estate Joinery we fully appreciate the need for sustainable sources of materials, and that we play our part in ensuring that this is possible now and in the future.

The forestry on the Bodnant Estate is predominantly Welsh Oak. The forestry management programme which includes felling and milling the Estate's own timber, helps reduce transport costs and maximises the use of local resources.

All timber products used in our joinery manufacture process and throughout our supply chain are FSC certified or from the Bodnant Estate, felled as part of our approved Forestry Plan with 'Natural Resources Wales', along with our intense replanting programme.

No part of the tree goes unused at Bodnant Estate Joinery either, even branches that are stripped off go to the workshop's wood burner to produce energy and heat and the sawdust, collected via our dust extraction system goes locally for animal bedding.

Timber is adaptable, repairable, durable and versatile. It is visually attractive and warm to the touch. Wood offers a multitude of beautiful textures, colours, pattern, properties and strengths, and it can be finished in a variety of ways including polishing, oiling, varnishing and painting- all done on-site in our paint and glaze workshops.

Our Timber
